

12 Steps to Making Your T-Bird Education Pay off (While Making a difference!)

**Are you a Thunderbird Graduate?
Are you ready to play a bigger game?
Are you ready to truly realize the dream you came to Thunderbird with?**

Join us for a year-long exploration with fellow T-Birds to maximize the investment you have made in yourself with your T-Bird education. The time is right for us to step it up.

Let's connect in two 60-minute calls every month, on the DBCoach Coaching Club and by using the E-book "12 Steps to Making Your Thunderbird Education Pay Off".

- support each other
- challenge each other
- brainstorm together and
- find solutions that are bigger than we could create on our own.

Current T-Bird Mastermind Group member states:

"So far I have gotten wonderful feedback on my goals and direction for the next year. I have a regular call with my partner whose background and goals are similar to mine. We both share great ideas with each other and propel each other forward that much quicker. I am also able to keep my international focus at the forefront, so I don't forget my long-term goals while I am cranking out my short-term cash flow activities. I learn a lot from hearing from others and the issues they are dealing with. Some are similar to my own, and some are things I have already dealt with, allowing me to provide some clarity to them on our bi-monthly calls as well."
